

Giulia

Design: Pininfarina

Code: Giulia big - Giulia small

The Pininfarina Research Centre a new children's rocking horse. The object derives from a single piece of cedarwood sculpted so as to obtain graceful forms, enriched by a leather-covered handle. A little rocking horse made completely of solid wood, with neither finishes nor glues, often so dangerous for our health. Only natural wood and the simplicity of an object that has brought pleasure to countless generations of children. An original design thought up by the Pininfarina Research Centre and applied to an object of play in all its simplicity.

Measures L. 159 - P. 61,5 - H. 87,2 cm - Big
L. 79,5 - P. 34,2 - H. 39,4 cm - Small

These articles are entirely made in solid scented cedar wood: thus any movement, cracks and changes in the wood during the time, compared with its condition at the moment of purchase, should not be attributed to imperfections of the product, but rather to natural adjustment of the wood to its new environmental conditions.

Maintenance Kit:

The finish is obtained applying our traditional treatment using wax and natural oils, materials that do not damage health and help bring out the beauty of the wood grain with all its natural splendour.

The variety of colour tones in the wood is one of its qualities, indicating that it is a natural material without colourants or artificial additives. Furthermore, every product is supplied with a maintenance kit and a product chart certifying its technical characteristics and its origin as a product "made in Italy".

Product maintenance must always be carried out using exclusively the kit supplied and avoiding harsh or abrasive materials. Wood is a living material and our trademark finish of vegetable oil and beeswax helps the wood to "breathe" and to "move" naturally.

It is easy to look after RIVA 1920's wooden furniture: just restore the finish using our maintenance kit whenever necessary.

As distinct from furniture treated with chemical-based coatings, the finish of our furniture can be regenerated even after years or long periods of disuse, restoring it to its original look.
